

Quiz 2 Announcement

Quiz 2 of Phys202 will take place essentially next Saturday, 11. 5. in slot 1 and slot 5 according to the following schedule:

Lecture Group I 9:30

Lecture Group II 8:30

Lecture Group III 16:00

Lecture Group IV distributed to 16:00 or 17:00, according to schedule

Lecture Group V 17:00 An exception is tutorial group 14, which is busy on first and last slot on Saturday. This group will take the quiz on Tuesday 14.5. in slot 5.

Only in case you have a very good reason to shift your quiz (e.g. in case you are in the national basketball team and have a game outside of Cairo) and a proof of this reason, the time of your quiz can be changed from Saturday to Tuesday. In this case, please contact Nermeen Serag before Thursday, 9.5., 11:59am (later change request will be discarded).

Please check the separate announcement which will be published on the intranet during this week for your hall assignment (we do not have the information about the halls yet). We have only restricted space and you are enforced to follow the schedule and take the quiz in the location and time you are assigned to: if you attend the quiz in the wrong hall or at the wrong time, you will get a deduction of 10% of your quiz 2 marks! So, please make sure to attend in the correct slot in the correct hall.

Duration: 30 minutes.

No extra time for late-comers, please be present and prepared in the correct hall at the correct time.

Topics: Thermodynamics,

Jewett/Serway Chapters 19-21 completely, chapter 22.1-22.5 only on a conceptual level (no calculation questions, since chapter 22 was not yet included in a worksheet)

Preparation: Lecture notes, Tutorials/sheets 5,6,7, web based assignments on thermodynamics, Serway problems.

Formulas: No formula sheet will be provided. Like in Quiz 1, you are allowed to bring *one* own *hand written* A4-page formula sheet to the quiz. You will not be allowed to use printed or photocopied formula sheets!

Tools: Please bring a pen and a calculator. Mobile phones will not be allowed during the quiz, and thus cannot be used as calculators!

Good luck!

Reinhard Sigel, Amr Aboshousha, Anke Klingner, and the course team.
